Allowable Subject Matter

1. Claims 61 and 62 are allowed.

The following is an examiner's statement of reasons for allowance: The overall claimed combination of a method for making an absorbent composite for personal hygiene articles including the claimed step of treating the pulp with a base at a temperature within the claimed range is neither anticipated nor rendered obvious by the prior art of record. Novak teaches a paper-making process resulting in a felt-like paper. The felt-like paper of Novak does not necessarily meet the requirement of fluffing pulp as required by the current claims. Additionally, the process of treating wood fiber pulp with a base at room temperature within the claimed range for absorbent articles is not explicitly taught in the prior art .

Interference

Applicant's request for a declaration of interference will not be granted as the subject matter of the patent and the instant application are not the same. The examiner does not consider the claims between the present application and the 5766159 patent to be interfering because the 5766159 patent does not claim the pulp is not subjected to crosslinking as is claimed by the present application 09334125. So at least for this subject matter, the inventions are not the same.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jacqueline F. Stephens whose telephone number is (571) 272-4937. The examiner can normally be reached on Monday-Friday 9:00-5:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Tanya Zalukaeva can be reached on (571) 272-1115. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
